

Space to think clearly, when work stops leaving room.

Confidential psychological support for professionals, expats and people navigating work pressure, burnout risk, relocation and change. Online, or in person in Barcelona.

You do not need to wait until it becomes unmanageable.

Support is useful as soon as pressure starts affecting your sleep, your work, your relationships or your decisions. The work focuses on what you are actually carrying, not on fitting you to a diagnosis.

Work stress and burnout risk

Understanding pressure, stress patterns, recovery and boundaries before stress becomes burnout.

Emotional overload

Support with uncertainty, performance pressure and routines that have stopped working.

Change and transitions

Career moves, life changes, questions of identity and professional direction.

Conflict at work

Difficult conversations, communication strain, boundaries and interpersonal stress.

Relocation and life abroad

Language, belonging, loneliness and adapting to life in a new country.

Boundaries and routines

Balancing personal wellbeing with professional responsibilities and relationships.

Simple, and no obligation.

1 Free introductory call

Twenty minutes to talk through what you need and decide whether this is a good fit. No cost, no commitment.

2 First session

Fifty minutes, €70. We clarify what is happening and what would actually help.

3 Ongoing support

If it is useful, we agree a rhythm together. You decide the pace.

"It was my first time speaking with a psychologist and I was hesitant. The conversations felt natural and easy to follow. I did not feel judged or pushed into labels, which helped me open up gradually."

FIRST-TIME THERAPY CLIENT

"As an expat in Barcelona I was struggling with adjustment and feeling settled. Being able to speak in English made a real difference."

EXPAT CLIENT BASED IN BARCELONA

Who you would be talking to.

- Bachelor's Degree in Clinical Psychology, two years counseling adults
- Master's in Industrial & Organizational Psychology
- Four years in suicide prevention and crisis intervention
- PhD research on workplace mental health and wellbeing
- Sessions in English, Spanish and Serbian

This support does not replace emergency, psychiatric, medical or regulated sanitary psychological treatment in Spain. Where needed, I will help you find appropriate onward support. If you are in immediate danger, contact local emergency services.
